

Title of workshop: Surveillance of SOEs
Beirut, February 15-17, 2022
Venue: Institute of Finance (online)

Objective of the workshop: The workshop aims to build capacities on surveillance of fiscal risks, with a focus on SOEs. Last year workshop found that surveillance of SOEs faces several challenges in Lebanon, such as weak surveillance of the Ministry of Finance and poor access to key financial data from SOEs for surveillance and decision making. The workshop will (i) provide a refresher from last year's course, (ii) present international examples of reporting on SOEs performance, and (iii) draft a financial reporting template to report on the financial situation of key SOEs.

Content: Presentations, SOE health check tool.

Audience: Ministry of Finance and representants from the main SOEs in Lebanon.

Date, location, format: February 14-16 - online

Language: English
